Dear Ginza Sushi Staff

I ordered a lunch take out today. What you did not know is that I have been sick with cancer, and going through Chemo therapy. No food or dish has looked or sounded even remotely appealing to me for quite a while. But when I passed your restaurant yesterday, quite weak from not eating, I suddenly wanted to try something. I was so amazed when I got home with my food! I never expected the delicious Miso soup, or the fresh, delicious rice and salad. I ate both of those first and felt NO nauasea (that's huge...). I slowly made my way through most of the Sashimi - which was excellent, but maybe a little adventurous in my present state. But again: I did not get sick or an upset stomach! I will definitely come back to eating more Sashimi when I am not getting chemo treatments anymore.

But I wanted to let you know that your fresh food, and the appealing and artistic presentation (even on take-out), made this the best meal I have had in a long time. Thank you! I will definitely be back on other days where nothing else I can think of sounds even remotely good.

Do you by any chance deliver ? If I am too sick to leave the house?

Feel free to post this with your other "testimonial letter" in the front. Unless me being sick is too depressing. 

Warmly,

S.G.  
El Dorado Hills
